

ASSOCIATE ESTATE PLANNING PRACTITIONER (AEPP®)
ADVANCED MODULE -
ESTATE PLANNING AND TRUSTS RELATING
TO REAL ESTATE

Estate
Planning
Practitioners
Limited

PURPOSE OF PROGRAMME

This course focuses on the need for property succession and the administration of the properties in the estate. The client may also want their real estate to be held on Trusts for medium to long term capital gains. A good reason to hold on to properties after one's lifetime is that at some point in the future, there could well be en-bloc opportunities.

This course will educate participants how they can advise clients in relation to the inheritance of Real Estate through Will making, Testamentary Trusts and Living Trusts such as the Standby Trust. Clients may have a need to deal with specific issues relating to asset protection and tax issues such as the stamp duty treatment regime.

Participants will get to understand:

1. How an Absolute Property Trust is structured
2. Loans to Trustees in the acquisition of Real Estate
3. Employing the Family Trust as a family bank to lend money to Beneficiaries in the acquisition of residential property.
4. The settling of real estate into Private Family Trust Companies as part of Family Offices for high net worth families.

With death scenarios, the deceased owner or his spouse may own multimillion-dollar properties. With a will in place, the executors and trustees may be empowered to sell real estate and will need to handle everything from valuation through to legal completion to ensure that the process runs smoothly. This course explains the legal aspects involved in the administration of real estate that will concern all property owners and their beneficiaries especially those who may be young, immature or vulnerable through old age and infirmity.

Who Should attend: Financial Intermediaries, Bankers, Advisers and Real Estate Consultants
