ONBOARDING AS A PRACTITIONER ON THE PRECEPTS PLATFORM

INTRODUCTION OF ESTATE PLANNING FROM A PERSONAL PERSPECTIVE

As a person planning for your own Estate Plan

With a greying population and growing affluence of residents in Singapore today, there is a greater need to plan for the proper transfer of wealth to the next generation.

With the unpredictable environment we are in, it is important to take the time now to pen down our intentions while we have a sound mind.

Assist your Family and Clientele base to:

Protect Assets from Mismanagement	Maintain Privacy of Your Family's Wealth	Reduce Conflicts between Beneficiaries	Complete your Estate Plan at a steep discount
Create and maintain a Family Bank	Creditor Protection	Prevent Squandering of Wealth	Protect Vulnerable Beneficiaries from undue influence and predatory persons
Keeping Hard-Earned Monies within the Family	Achieve Family Goals and Promote Family Values	Plan for Business Succession or Exit Arrangement	Stretch one's legacy for rightful causes

Considerations on a personal level

Have you:

- Put everything down in writing with clear instructions to avoid potential conflicts and misunderstanding for your loved ones?
- Considered if there are any beneficiaries who are immature or not financially savvy to deal with the sudden wealth?
- Appointed the key persons in your Will to deal with consolidating and distributing your assets?
- Appointed a trusted person to take care of your child/children?
